An Alternative to plastic bags

Some of you may have heard of the MORSBAGS initiative being promoted by Zero Waste Mann – making and distributing reusable cloth bags instead of using plastic bags. The Manx Wildlife Trust are planning a fundraising supermarket bag pack after Easter – but want to pack customer's own bags, or use MORSBAGS instead of plastic bags. They will need a lot of MOSBAGS for that! Can you help make some? The sewing is very simple if you have a sewing machine. Zero Waste Mann have lots of old material which has been cut into 'ready to make' kits, but are short of people with sewing machines and a little time to make them up. The kits can be collected from the Green Centre on Saturdays and donations of suitable material can also be taken to the Green Centre. For more information please contact Ann Davidson (Form 1 mum) or see www.morsbags.com.
